

Your Fast, Easy & Affordable Solution to Cabinet Remodeling

Shaker Tailored Drift Elm

DuraFuse™ brings contemporary colors, profiles, and woodgrain finishes to Qwikkit's fast, easy, and affordable cabinet refacing system, using heat-pressed film fused directly to furniture-grade MDF to create a smooth, sealed, consistent finish with the design flexibility to match changing styles, color trends, and renovation specifications.

Qwikkit is constantly delivering new items and enhancements to our product line. Please check out our website **Qwikkit.com** for our most current product information.

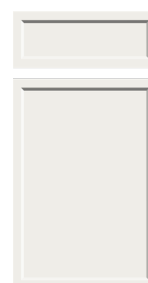

Door Profiles

*Oxford profile
in Frost.*

Oxford

Offers a clean, timeless profile with balanced lines that works beautifully across both solid colors and woodgrain finishes.

*Tailored profile
in Powder.*

Tailored

The Tailored profile adds a refined, slim edge detail to the classic framed look, giving cabinet renovations a more polished and customized appearance.

*Tailored Seamless
profile in Haze.*

Tailored Seamless

Paired with Seamless drawer fronts, this design delivers a crisp, modern framed style with a smooth continuous finish for a clean look that is both current and versatile.

*Beveled profile
in Drift Elm*

Beveled

Beveled contours brings subtle depth and dimension to a familiar framed profile, creating a more dimensional look while maintaining a contemporary feel.

Door Profiles

*Seamless profile
in Wisp Ash.*

Seamless

Seamless creates a sleek, uninterrupted surface that's ideal for modern, minimalist renovations and design-forward cabinet updates.

*Square Raised profile
in Haze.*

Square Raised

This raised panel design is a structured, defined profile with crisp lines that bring classic cabinet details to a fresh renovation-ready style.

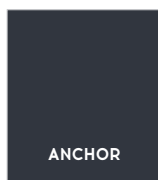

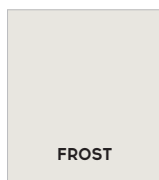

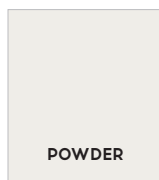

*Curved Raised profile
in Powder.*

Curved Raised

A raised panel featuring soft, rounded details that adds traditional character with a smoother, more approachable finish.

Colors

These solid and woodgrain colors are available in all profiles.
